

Hosted by the Brazilian Guppy Association

Sanction by the World Guppy Association

The world has changed due to Covid 19, the pandemic has forced the cancellation of guppy shows around the world.

The Brazilian Guppy Association decided to bring together all the guppy enthusiasts around the world for first of it's kind a global VIRTUAL GUPPY COMPETITION.

This year's **WORLD GUPPY CONTEST** in August 2020 was supposed to be held in Tianjin, China but was canceled.

The **World Guppy Association** and the **Brazilian Guppy Association** realized that even without the cancellation of this year's world guppy contest that many guppy breeders around the world would find it difficult to send show entries or attend the **WORLD GUPPY CONTEST** in person therefore a virtual competition formation was decided upon so everyone from the World could participate.

The virtual competition will feature judges from around the world, including World Guppy Contest judges, **INTERNATIONAL FANCY GUPPY ASSOCIATION** (USA) judges, **IKGH** judges (Europe) , **CIPS** (China International Pet Show) judges, **ASIAN GUPPY SHOW** judges, and other who are new to guppy judging. (some judges are judges for more one venue).

The idea is to open up the judging so more guppy breeders from around the world could participate.

SHOW RULES:

Video show entries need to be sent in a format mp4. Each show entry video, 20 to 30 second duration for all show.

Show rules in general will be based on the **WORLD GUPPY CONTEST** rules subject to review by a judging panel.

VIDEO PARAMETERS AND RULES:

- 1) it is prohibited to change or enhance the color of the video or show entry.
- 2) The light should be white or natural and the aquarium with a black background.
- 3) The aquarium and water should be clean without colored water.
- 4) When registering, the candidate will be able to send 05 videos by selecting "the name of the class" in which the fish will enter. Fish entered in the wrong classes will be disqualified;
- 5) a measuring device like a ruler in metric or in inches must be included in the tank with the show entry so to measure the size of the fish.

WORLD GUPPY CONTEST 2020

A Virtual Show - Connecting guppy breeders all around the world

- 6) The scale or ruler must be in the background of the tank with the fish in front of the scale or ruler.
- 7) Video with personal or company or corporate names or advertisements is prohibited
- 8) In the top corner of the aquarium there should be the breeder's ID which is in the personal registration of the registration platform;
- 9) Videos should be sent between September 1 to September 30. (possible extension if decided by the Brazilian Guppy Association).
- 10) It is advised that all video show entries be sent as soon as possible to avoid being late and your videos not being judged.
- 11) All videos can be deleted by the participants up to September 30.
- 12) The video should show the fish from above(5s) and from the front very close to the front of the ruler, so that the judge can see the size and characteristics of the entry.
